## HOBBIES

## PROFILE

A system administrator with vast IT experience. Skills include computer networking, analytical thinking and creative problem-solving. I'm very open-minded, willing to work hard to progress and achieve my goals. Trying to be always, loyal, accurate and focused on duties. My mindset is focused on DevOps methodology of IoT and continuous delivery. I am passionate about Linux Sys administration and cloud technologies with a focus around uptime and monitoring of infrastructure.

## EMPLOYMENT HISTORY

### Operations Engineer at BBC, Manchester

June 2019 — November 2019

Working in Digital 247/365 I am part of a team responsible for logging, investigating, fixing and escalating issues that occur on the BBC's wide range of digital platforms. This includes iPlayer both provided by the BBC and other parties who carry it on their services, websites that may be suffering from technical or content related issue and many of the tools used in the day to day activities of the wider BBC operations

Used Tech :

AWS (SQS, EC2, SES & CloudWatch ), Linux, Tomcat java containers, Python (data extraction from APIs), Bash, Apache, IIS, Zenoss Enterprise Monitoring, Nagios, HP Operations Manager, JIRA, Confluence, Dynatrace synthetic monitoring, VMWare VSphere

### Freelancer at Gurudesigns, Manchester

November 2018 — June 2019

Freelancing around various projects including working with :

- Platforms on AWS , Network , Lamp stacks
- AWS (EC2|RDS|CloudWatch|ELBS|LoadBalancing|R53)
- GCP ( Managing of resources )
- Building Websites around ( Wordpress, WebRTC Node+Sails.js )

### Junior Site Reliability Engineer at EGNYTE, Poznan dept.

April 2018 — November 2018

I Was working for DevOps Department located in Poland for company from San Jose which is competition to Dropbox and Google Drive. It was Pure SaaS environment. My tasks include mainly maintenance of monitoring systems, as well as adding new features to it.

Examples :

- Working in ITIL Methodology
- Writing RCA for support

Crossfit, Books, Devops culture,  
Hiking, Cooking, System  
administration, Military, Fitness,  
Video Production, Graphic Designs

## ◦ LANGUAGES ◦

English
