PERSONAL PROFILE

A motivated, flexible and responsible individual, who is readily open to programs that help harness his skills, capabilities and other resources required to improve professionally and boost productivity. A team player with great interpersonal communication and negotiating skills, with the ability to work with little or no supervision to make quick and rational decisions with good initiative. He is an aspiring expert in the field of Cybersecurity with knowledge acquired based on academics, professional training and qualifications.

ABSTRACT SKILLS

- Knowledge Sharing
- Good Communications
- Human Relations
- Fast Learner

TECHNICAL SKILLS

- Microsoft office applications with extensive knowledge of system capabilities in Windows and Linux operating systems.
- Basic programming skills in HTML, CSS, Python, and Database Management (MySQL).
- Configuring routers, switches and servers.
- Configuring firewalls and creating DMZs where necessary in networks with Fortigate and Checkpoint.
- Simulating Networks using Packet tracer, OPNET and GNS3 software, and also applying relevant protocols to enable the network function efficiently.
- Hands-on experience with Vulnerability Scanning/Analyzing, System forensic and Penetration Testing tools such as Nessus, Nexpose, Nmap, Metasploit, Autopsy, Wireshark, WPScan and Acunetix.
- Network Monitoring using Orion SolarWinds suite and Look@LAN, Application security implementation such as Symantec PGP, SEP.
- IT Security Audit, Cybersecurity awareness training and content development.
- Usage of virtualization tools such as VMWare and Virtualbox for test environment.

PROFESSIONAL CERTIFICATIONS

Cybrary Risk Management(SC-24b8429e3-e7282) August 2019

CyberArk Certified Trustee (487835) August 2019

Cybrary Payment Card Industry Data Security Standards(SC-24b8429e3-96a019) July 2019

Cybrary Security Engineering(SC-24b8429e3-a14e24) July 2019

Cybrary Nessus Fundamentals(SC-24b8429e3-124957) July 2019

Cybrary Organizational Data Security Fundamentals(SC-24b8429e3-2bd4b) May 2019

FortiNet Network Security Engineer (Levels 1 - 3)

December 2017

Cybrary Fundamental Vulnerability Management(SC-24b8429e3-a5321f) June 2017

Cisco Certified Network Associate (CCNA).

December 2011 - 2015

CCNA (Route and Switch) Certified (409044168266IKZL)

CompTIA Security+ and CRISC (in progress)

WORK EXPERIENCE

Co Creation Hub Nigeria. 294 Herbert Macaulay Way, Yaba, Lagos, Nigeria.

October 2018 - August 2019

Position: Digital Security Analyst

Responsibilities:

- Performed security audit exercise for NGOs, CSOs and Small scale organizations both in Nigeria and Ghana using SAFETAG (A SECURITY AUDITING FRAMEWORK AND EVALUATION TEMPLATE FOR ADVOCACY GROUPS) that resulted in the identification of existing and potential vulnerabilities and threats the organizations are not secured against.
- Discovered threats by running Penetration test, Vulnerability analysis, systems forensics and Risk assessment.
- Proffered mitigation techniques and reliable solutions to help secure critical assets with constant security awareness training.

Lumenave International Limited. 3rd floor, UAC Building, 1-5 Odunlami Street, Lagos Island, Lagos State, Nigeria.

September 2017 - January 2018

Position: Systems Security Analyst

Responsibilities:

- Configured and supported Network Monitoring solutions, Application Security solutions, and Firewalls such as Solarwind, Fortigate and Symantec.
- Monitored and analyzed attempted efforts to compromise security protocols and escalated issues to higher level associates.
- Prioritized and managed technical support issues/calls from clients about deployed solutions with proper follow up until they are resolved.
- Performed vulnerability assessments and risk evaluation, also providing remediation to vulnerabilities detected.

TM30 Global Limited. 38A, Awori Road, Dolphin Estate, Ikoyi, Lagos, Nigeria.

July 2016 - July 2017

Position: Network Administrator and VAS platform manager

Responsibilities:

- Administering company's internet network and providing system support to colleagues to ensure availability of service and resources.
- Charged to create email accounts and manage the email service platform.

- Spooled events logs on the different VAS platforms for analysis of successes and failures of the platforms.
- Managed the VAS Application platforms and developed content for it.
- Ensured Internet Service Provider delivers and adheres strictly SLAs.

NetIT Solutions LTD. Osogbo, Osun State, Nigeria.

August 2013 - March 2014

Position: Network Engineer

Responsibilities:

- Installed and Configured Network Equipment such as (Routers, Switches and Radios), CCTV and Intercom.
- Installed and troubleshoot Custom designed Operating system for Tablets.
- Designed and implemented WAN and LAN networks.

Southgate Technologies LTD. 17 Remi Fani-Kayode Avenue, GRA, Ikeja, Lagos State, Nigeria.

July - December 2011

Position: Intern Network Engineer

Responsibilities:

- Installed, maintained and troubleshoot networking Equipment such as (Router, Switch, Computer and IP Phones).
- Monitored network logs and internet bandwidth usage using Look@LAN.
- Supported end users in resolving issues with network connectivity and device.

ACADEMIC QUALIFICATIONS

University of Essex, Colchester, Essex County, United-Kingdom.

2014-2015

MSc Computer Networks and Security

Relevant modules include: Networking principles, Network security, Computer security, Cloud Technologies and systems, IP Networking and Applications, Networks Lab, Programming in Java, Professional Practice and Research Methodology.

Ladoke Akintola University of Technology, Ogbomosho, Oyo State, Nigeria. **2007-2012**

B.Tech Electronic and Electrical Engineering

Relevant modules include: Communication Principles, Electromagnetic Fields and waves, Signal and Systems Analysis, Digital Electronics, Basic Computer Programming, Network Synthesis and Microwave Engineering.

PROJECTS

- **Vulnerability Analysis in Computer Networks (MSc Thesis)**
- **Perimeter Security Implementation (Wema bank Project)**
- **Solarwinds Monitoring Solution Optimization (FCMB Project)**
- **SafeOnline Bus (CCHUB Security Awareness Project)**

INTEREST

Technology, Reading, Social Networking, Sports, Video games, Meeting people, and Travelling.
