PERSONAL PROFILE

I am a recent graduate of Computer Forensics and Security Leeds Beckett University gaining a 2:1. I am looking for a position in project support which will utilise and enhance my organisational, communication and practical skills.

EDUCATION

2015 – 2018: Leeds Beckett University – BSc (Hons) Computer Forensics and Security Modules studied included: Databases, Web Development, System Development, Programming, Computing Systems, Computer Forensic Processing, and Digital Security Landscapes.

Areas of particular interest are:

Databases – Within this module I designed and developed a web-enabled database system using the Oracle toolset. This included using ER modelling for design, SQL for reports and queries and Oracle Apex for the client front end. I produced an application for a car loan case study.

Web Development – This module covers website development using HTML, CSS, PHP and MySQL where I have created my own website representing the use of all of those languages.

Advanced Digital Forensics- This module's content included the methods and standards used for forensic investigating upon a range of devices such as XRY to investigate mobile devices and Encase and FTK for imaging a hard-drive while following the ACPO guidelines and ISO17025 standards. This module also showed how to locate relevant information within the device and present to investigators explaining the process.

Digital Security Landscapes- This module's content included the security mechanisms that can be applied and steps a hacker would undertake including network security, security strategies, and cryptography. In this module, I have successfully undertaken multiple attacks against vulnerable systems allowing me to understand the methods an attacker may use and prevent them such as Metasploit, nmap.

2013-2015: St. Aidan's and St. John Fisher Associated Sixth Form, achieving passes in Applied Science, Statistics and Computing.

2008-20013: St. Aidan's Church of England High School, achieving ten GCSE passes including English, Maths and Science.

Work Experience

2018 – Present: AV Loans Coordinator

My role involves the management of the equipment loaned out as well as the initial set up of the system to monitor the coming and going of these loans. This has led me to improve my communication skills and situational awareness such as when I had to be aware of when equipment will be requested or communicate that an item is no longer available.

2015 - 2018: Event Cleaner

My role and duties include assisting in the clearing of rubbish before during and after conferences. I am often responsible for the certain sections of events, this involves, maintaining tight deadlines, managing the priority's and being able to deal with the inevitable problems and issues that arise over the venue.

2016- Present: STEM Ambassador

This involved me leading a code club where I developed children's skills in coding through scratch. Due to leading the club, I have developed knowledge of educating people as well as skills towards motivating children to develop ideas as well as analysing students and situations quickly and accurately.

2016- 2018: Student Ambassador

My responsibilities were showing visitors around the university campus and informing visitors about the university. These responsibilities have led to me knowing how to portray professionalism and communicate with a variety of people in different situations.

Volunteering

2013: Library Assistant

My responsibilities involved assisting with the IT course as well as showing people how to use the Library system. This role has led me to understand a business can work on multiple fronts in addition to furthering my knowledge of communicating with a variety of people under stressful conditions.

2013-2015: Technical Assistant

My role was to assist in the setting up and break down of technical equipment for the entertainment industry at multiple venues as well as assisting on the logistics of the festival (before, during and after) for example instrument and sound equipment set up and transport. These roles have developed my skills to work in a team and work effectively under pressure.

2012-2015: HIYMF Assistant

HIYMF is an international festival based in and around Harrogate where I had the responsibility to transport equipment quickly between venues allowing me to further my teamwork skills and ability to work under pressure as well as adapting quickly to diverse problems and different cultures.

2015- Present: Scout volunteer

This involved me leading a variety of team building activities where I developed my leadership skills further. Also, it involved me being in charge of selling produce at a local gala which developed my ability to memorise orders to mentally sort the pricing as well as my negotiating and persuading skills.

Additional Skills and Knowledgeable Areas
