### Introduction

Hello I am Javier and I am looking to expand my knowledge focused primarily in the game industry or development, management and analysis of projects in general. Wanting to acquire professional working experience.

### Skills

Java	C#
★★★★★☆☆	★★★★★☆☆
SQL	Node JS
★★★★★☆☆	★★★★★☆☆
C	Git
★★★★★☆☆	★★★★★☆☆
Unity 3D	Jenkins
★★★★★☆☆	★★★★★☆☆
Docker	Kubernetes
★★★★★☆☆	★★★★★☆☆

### Idioms

Spanish	English
★★★★★☆☆	★★★★★☆☆

### Achievements

-  Recognition for high values in high school
-  Recognition for best averages UCAB 2016

### CAREER PROGRESSION

#### February - May 2019 Internship in Mipto Tech

For my internship in Mipto I developed the early core stages of an AR app for the web in JavaScript and used the framework ThreeJS. This project is not announced yet.

#### July 2018 - January 2019 Junior Programmer at EZGMZ

Worked developing microservices for the back-end of a web page, using Node JS under an environment of continuous delivery and continuous integration with Kubernetes, Jenkins, GitLab and Docker. Also worked on the PostgreSQL database creating functions for the microservices.

#### 2017 - 2018 Community service and Networking project

For my community service, a group of friends and I develop a desktop application in C# with its database (SQL) to facilitate the business processes of Fundación de jóvenes embajadores.

For my Networking project, my brother and I develop a monopoly game with 8 playable characters, fully animated and a living board in a client - server architecture developed with Java.

### ACADEMIC BACKGROUND

#### UNIVERSIDAD CATOLICA ANDRES BELLO

Finished my studies for informatic engineering and currently working on thesis and expecting to have my degree by April 2020.

- Recognition for best averages UCAB 2016

#### COLEGIO SAN AGUSTIN, EL MARQUES

Bachelor in Science, outstanding in areas such as mathematics and chemistry (2009)

- Recognition for high values

### PERSONAL SKILLS

- Proactive
