

Hugh Stanley

These are only the most recent and the very first projects I have worked on in my 39 years in the industry. I have also worked on many office, shop, hotel and other commercial fit outs as well as domestic housing contracts, initially employed as a joiner but latterly as a site manager/foreman, displaying skills including sourcing and ordering materials, client liason, health and safety management, program adherence and general foreman duties. I possess excellent timekeeping and attendance levels and have healthy man management skills. I enjoy task and problem solving.

Whilst possessing good computing skills I am also conversant with producing and editing CAD drawing
