

Daniele Galluccio

Chief of Software Engineering at MyMeds&Me

daniele.galluccio@gmail.com

Summary

Senior executive with 17+ years of professional experience matured in international context. Able to lead highly complex software projects, deliver cost-effective solutions, and cultivate partnerships.

Solid, hands-on technical knowledge, spanning multiple technologies and a vast experience in middleware and SOA projects.

Acquired domain knowledge in: Finance, Pharmaceutical, Utilities, Telecommunications, and Retail, working for many market leaders in multi-million £ projects. Delivered consistently excellent project success rates even in technically challenging scenarios such as: processing 10M messages/day, limit memory usage of the application to 64Kb, develop interfaces for proprietary hardware, or guarantee 99.99% availability.

Qualifications Highlights:

- Project Management, Product Management, Release and Change Management
 - Enterprise Architecture / Integration / SOA / SCA / EAI
 - Data Architecture, Data modelling, Master Data Management (MDM)
 - Team Development, Mentoring
 - On-premise and off-shore team lead/management (team size: 3 to 20+)
 - R&D and full Development Lifecycle, proficient in both Agile/Scrum and Waterfall practices
 - Extensive technical and business domain knowledge
 - Provided consultancy for big players (TIBCO, IBM, Accenture, Deloitte, Cap Gemini)
-

Experience

Chief of Software Engineering at MyMeds&Me

August 2016 - Present (8 months)

IT Director and Architect Lead at Kavamala

February 2010 - August 2016 (6 years 7 months)

Kavamala is a UK based company with a software product catalogue of release automation tools, and also offers consultancy services. Kavamala's Customers include Deutsche Bank (Finance, Systemic Bank), TIBCO (Software Vendor, Fortune 500), Ladbrokes (Gaming, FTSE 250), Tesco (Retail, FTSE 100), Deloitte (Professional Services, 'Big Four')

- Technology vision and development of products
- Products roadmap
- Development of services portfolio
- Review, analyse and approve the department's operational and project budgets
- Lead strategic planning to achieve business goals by identifying and prioritizing development initiatives and setting timetables for the evaluation, development, and deployment of services and products

Moreover:

- Designed and oversaw the implementation of a set of APIs and business services to leverage a T1 bank's new global trade store. The solution currently handles 1+ billions records with a growing rate of ~12M/day. Among other notable features, it offered a fluent DSL for the application consumers to query the services and was designed to be both scalable and fault tolerant.
- IT Initiative, Vision: Full SDLC for Release Butler: a state-of-the-art software for automated build, deployment and release management inspired by ITIL best practices (Kavamala's flagship product). Release Butler proved to reduce the errors in deployments and configuration from 100s to <5 and reduced average release deployment time from 40+h to 3h.
- Roadmaps and optimizations: SOA Strategic Improvements Architecture Group at Tesco 'dotcom': achieved recurrent savings exceeding £ 1M per year by streamlining the service transition. Improved the synergy between Application Support and Development, and strengthened the development practices, achieving an 87% reduction of defect tickets in just 3 months.
- Middleware Architecture and development for retail banking solution (TescoBank), SOAP web services for orchestration and abstraction of back-end and third party systems.

IT Strategist / SOA Consultant at Tesco

April 2010 - August 2011 (1 year 5 months)

- ActiveMatrix Production Lead & Strategic Improvements Architecture Team at Tesco: tescodotcom. Infrastructure support for a marketplace solution aimed to compete with Amazon. Main achievements: re-designing and automation of the release and deployment processes, stabilization of the platform, performance tuning. Streamlined installation and configuration of production and non-production environments bringing provisioning-to-runnable times down from 2 months to 2 weeks. Provided help on Architecture and Design of a messaging bus for a sister project in the "Tesco International" team.
- ActiveMatrix Production Lead & Strategic Improvements Architecture Team at Tesco: tescodotcom. Infrastructure support for a marketplace solution aimed to compete with Amazon. Main achievements: re-designing and automation of the release and deployment processes, stabilization of the platform, performance tuning. Streamlined installation and configuration of production and non-production environments bringing provisioning-to-runnable times down from 2 months to 2 weeks.
- Provided support on Architecture and Design of a messaging bus for a sister project in the "Tesco International" team.

Agile and SOA Coach at Akbank

March 2009 - February 2010 (1 year)

- Architecture and Code review, team coaching and mentoring, definition and implementation of release/change management guidelines and best practices (SOA with TIBCO BW 5.6, EMS, MQ, Java, Ant)

Tibco Consultant at Deutsche Bank

February 2008 - December 2008 (11 months)

- Implementation of “Orinoco” platform for backoffice operations. (SOA with TIBCO BW 5.4, Oracle, EMS, XML/XSD/FpML, Java, Shell Scripting, Ant, Hudson)
- Redesign and implementation of release build and deployment procedures. Review and substantial improvement of the existing release management process. Extensive task automation for infrastructure support.

Tibco Consultant at Merrill Lynch

July 2007 - January 2008 (7 months)

Tibco specialist in the R&D department.

Major project: Strategic Transaction Reporting

Tibco Consultant at Swisscom

March 2007 - May 2007 (3 months)

- application maintenance on the EAI platform (TIBCO BW 5.2, BBWF 5.2, ActiveDatabase and SAP Adapters, Java)

Tibco Consultant at Merck Sharp & Dome

February 2007 - February 2007 (1 month)

architectural review and audit of the Univadis Portal (TIBCO PortalBuilder 4.5.3)

Tibco Consultant at #Tk

July 2006 - February 2007 (8 months)

integration project in the telecommunication industry. Integrated Billing, CRM and the Provisioning systems: Geneva, Siebel and a proprietary solution. (TIBCO BW 5.4 and ActiveDatabase Adapter, Java)

Architect and Managing Director at dgware

January 2003 - January 2007 (4 years 1 month)

- at Conforama (Warehouse - Lille, FR), TelecomItalia (Telco - Rome, IT), La Mondiale (Insurance company - Paris, FR): various POCs and Pre-sales support of TIBCO products. [on behalf of TIBCO PSG Italy]
- at MSD (Pharma company - Bruxelles, BE), architectural review and audit of the Univadis Portal (TIBCO PortalBuilder 4.5.3) [on behalf of TIBCO PSG BeNeLux]:
- at Italgas (Utilities/Gas - Torino, IT): development of an order management application (Java: MVC servlet/jsp, Shell script, TIBCO PortalBuilder, TIBCO BW, Oracle)

- at Electrone spa (Energy consortium - Torino, IT): B2B and EAI interfacing Electrone's systems with Enel's (Italian national energy company), : Oversaw all phases of the software lifecycle of a "energy consumption forecasting & booking" system targeted at corporate clients (Java: JSP/Servlet/SAP interface via JCO – Oracle)
- at SIET spa (Energy and Gas company - Torino, IT): development of a dashboard for Salesmen's activity management and file synchronization (C++, Visual Basic and VBA)
- Managed product lifecycle for a new company product: a Quality control system for the textile industry. (MS .NET+Firebird)
- at Autogerma spa (Italian national importer for VolksWagen group - Verona, IT): POC of data mining and report extraction integrating AS/400 with different systems, design and implementation of EAI between several client applications and an AS400 back-end. (various technologies)
- at Cefin-Sateltrack (GPS service provider), Development of VMML(XML) bridge for GPS/Telecontrol system (C++, XML: VmML)
- Implementation of Tomcat based High Availability Application server Clusters for the company's customers.
- at CGIL (Labor Union): Security audit, analysis and new design of the Piedmont regional CGIL network and infrastructure

Tibco Consultant at UCB

August 2004 - June 2006 (1 year 11 months)

- Corporate portal development and maintenance, improvements of portal architecture (TIBCO PortalBuilder, BW+BWVF, Java)
- Architecture, design and development of Human Resources Management workflow (TIBCO BW+BWVF/Java: Spring)
- Maintenance support on Production Planning application (TIBCO BW)

Consultant at Siemens

April 2004 - August 2004 (5 months)

For Italgas (First Italian gas company) I was in the development team of the main application for management of backoffice tasks. My role in this project has been as analyst programmer for the web application (environment: MVC servlet/jsp + Tibco Portal Builder, DB: oracle 8i, OS: HP-UX)

cofounder/owner at Emediasolutions

November 2001 - December 2003 (2 years 2 months)

- Product Manager: managed all phases of the project which developed a multipurpose network appliance (Emediasolutions Miniserver, now sold by dgware brand) (Debian Linux + various)
- Implemented a Linux based HA-Load Balanced Cluster (Debian Linux + various)
- For Cefin-Sateltrack, Development of VMML(XML)/proprietary-format adapter for GPS/Telecontrol system (C++, XML: VmML)
- Refactored an e-learning portal (PHP, MySQL)

- Teacher of Web Authoring courses
- Project manager of several Web Applications (mainly with Java / Oracle)
- Implemented a Tomcat based High Availability Application server Cluster

Daniele Galluccio

Chief of Software Engineering at MyMeds&Me

daniele.galluccio@gmail.com

25 people have recommended Daniele

"Daniele worked as a TIBCO consultant on a high profile project for a major retail bank. As a fellow team lead I found Daniele friendly, accommodating and dilligent. He was always willing to offer his advice and his time to solve challenging problems. The project benefitted from Daniele's significant experience and knowledge of TIBCO products. He has an ability to identify opptunities to improve processes and to deliver these improvements. I enjoyed working with Daniele and would happily do so again."

— **Michael Ansbro**, worked with Daniele at Kavamala

"I had the pleasure of working with Daniele Galluccio in one of the major integration programmes for Clients and found him as a very knowledgeable, creative and competent person in EAI technologies. He has always been very helpful and one, whom you can approach with any technical issues and be sure to get the right answer or right direction."

— **Tulsi Vuppu**, worked directly with Daniele at Kavamala

"Daniele was a key member of the Tesco Change Programme IL team. As a senior TIBCO consultant, he helped us to stabilise the platform and to improve the architecture of Tesco's ActiveMatrix Implementation. After we introduce his tool: ReleaseButler, we also achieved a more reliable release process, along with quicker deployment times. I will be happy to work with him again."

— **Irene-Stella Akin**, managed Daniele at Tesco

"I'd asked for Daniele's help on more than 1 occassion and each time I was very pleased with the work that was done. Daniele is an expert in TIBCO Administrator and is also well versed in other TIBCO products. He is very curteous and goes out of his way to help others. The high priority critical tasks were completed well within the SLA and with utmost proficiency. Thanks for your help Daniele. Thanks, Balaji."

— **Balaji Thimmegowda**, was Daniele's client

"I met Daniele as a contractor that we had working for one of our larger clients. Daniele is not only hard working but also a well rounded individual that relates at a personal level with everyone in the engagement. He managed to keep a fantastic level of camaraderie with our team and such a focus on our client's

satisfaction that we trusted him with all internal tools and communications. A fantastic addition to a team, I would not hesitate to recommend or incorporate in my teams in the future."

— **Aitor Elfau**, was with another company when working with Daniele at Tesco

"Daniele's experience and understanding of key technologies helped transform the project when at a critical stage. He is very friendly and a great person to work with. I strongly recommend Daniele as he is highly capable to take more responsibilities."

— **Tarun Rohilla**, worked directly with Daniele at Tesco

"Daniele has been instrumental in making the Tesco Change Program - Integration Layer (based on TIBCO ESB) rollout a success. Due to his significant contributions, in developing from scratch a custom deployment framework integrated with Life Cycle Governance Framework we were able to build and deploy services into the ESB in a repeatable and reliable manner. This helped to bring down deployment timelines from a period of months to days. Not only is Daniele a great technologist but a very effective communicator and strategist who understands the business and project needs of the customer and provide quality solutions to challenging problems. I recommend Daniele with enthusiasm for any high level enterprise integration role which requires a rare blend of hands on technologist and coach who can take the whole team along."

— **Gaurav Kaul**, worked directly with Daniele at Tesco

"Daniele is excellent professional with expert knowledge in TIBCO products. He is also having long experience with wide range of software technologies and projects. It's always easy to trust his actions and rely on him as a professional and as a person."

— **Victor Tsonkov**, worked directly with Daniele at Tesco

"We benefited from his knowledge and experiences on especially TIBCO products and release management practices. He is successful and reflects his success to the project which he involved in."

— **Suha Guclu CELIK**, was with another company when working with Daniele at Akbank

"He is strikingly proficient in his area. Moreover he is very kind and friendly. It was a pleasure to work with..."

— **Tuna Erkin**, worked indirectly for Daniele at Akbank

"I am working with Daniele in AKBANK project in #istanbul. He has a great knowledge in middleware technologies and deep understanding of TIBCO concepts and solutions, besides he is very talented. Also I have the chance to see how he achieves to join his skillful side with his great benevolent personality."

— **Abdulkerim Duran**, was with another company when working with Daniele at Akbank

"I had a chance to work with Daniele in Akbank project at Istanbul, Daniele's vast experience in middleware concepts, release management and problem solving abilities was great asset to the project. Most importantly his cooperative and friendly attitude made us to do lot of knowledge sharing. I would highly recommend him for any TIBCO Consultant/Architect roles."

— **Umashanker Raju**, worked directly with Daniele at Akbank

"Daniele is a real professional in EAI domain performing high level complex tasks. He is friendly and communicative offering professional support on need in our complex project, which helped my colleagues and our client to understand the subject matter better at though times. Looking forward to working with him again."

— **Aykut #çöz**, was Daniele's client

"I met Daniele on site, we worked together on a big integration project. From a competence point of view he has a deep knowledge of the Tibco applications as well as others (Java, Unix, to mention few of them). He is very friendly, positive, supportive guy. It was really a pleasure to work with him and he would be definitely the person I recommend if I had the need of a colleague."

— **Gianfranco Pellegrino**, worked directly with Daniele at Deutsche Bank

"I worked directly with Daniele on site, he was always a calm and capable member of the team who could be relied on to produce high quality designs and implementations. He has a very good working knowledge of TIBCO products as well as a deep understanding of the environments in which they operate. I would have no hesitation in working with him again and would recommend him without reservation to any prospective client or company."

— **Eric Thompson**, worked directly with Daniele at Deutsche Bank

"Hi, I met Daniele on site on a huge integration project. As Daniele is a very experienced person I enjoyed working together with him. Best Regards, Timo"

— **Timo Christoffer**, was with another company when working with Daniele at Deutsche Bank

"I have been working with Daniele for over 3 month and I have been impressed by his commitment and his technical ability. He is flexible, supportive and a real pleasure to work with."

— **Valerio Malez**, worked with Daniele at Merrill Lynch

"Daniele and I worked on different projects while at Swisscom. These projects were managed by the same central group and we used the same technology (TIBCO) plus were required to follow similar standards and processes. Our paths often crossed in meetings and technological decisions, allowing us the opportunity to

get to know each other. His technical skills and knowledge stood apart from others. For example, I observed him contributing to internal intellectual capital. This ICAP benefitted Swisscom and future consultants by minimizing the installation and ramp up time for new resources. He has a positive attitude, pleasant demeanor, and an invaluable direct communication style. Exposure to various technology areas, and especially TIBCO, makes him a strong and indispensable resource. Daniele would be my first choice if I had the need for a TIBCO resource, needed mentoring on some technical area of TIBCO, or wanted an evaluation of other resources."

— **Don Myers**, worked directly with Daniele at Swisscom

"Daniele showed himself to be a competent and highly experienced TIBCO developer, and whilst he was only with us for a short period, his ability to quickly come up-to-speed with our existing architecture and design principals made him a very effective team member from day 1 of his engagement. I also found Daniele to be a very personable and communicative individual, and coupled with his excellent technical skills, he quickly became integrated, fully productive and a real asset within our team."

— **Chris Manton**, was Daniele's client

"Daniele is a great colleague to work with. His kindness together with his great knowledge of the TIBCO middleware platform, made easy to integrate a Siebel 7.8 application with the backend billing system (Geneva). That project was a success also because he was able to catch the business and technical requirements needed from either Siebel and Geneva and deploy a consistent middleware logic to transform the messages between the two systems."

— **Rosario Capo**, worked with Daniele at #Tk

"Daniele is good and high professional expert with great ability to perform tasks with high level of complexity. Moreover he is very friendly and open for communication and professional help."

— **Vladimir Duber**, worked directly with Daniele at #Tk

"Daniele IT expertise is beyond the average. I had the opportunity to testify his infinite Java knowledge and his confidence working with all kinds of TIBCO products involved in our project. Highly recommended consultant."

— **Nuno Santos**, worked directly with Daniele at #Tk

"Daniele is a very structured and, above all, upright person. His analytical qualities combined with his broad and sound IT technical expertise are clearly outstanding assets. He is never afraid to investigate several technical options whilst respecting assigned deadlines. Daniele's code is always robust, secure, highly ergonomic and written with state-of-the-art technologies and packages. Needless to say that I've been deeply impressed by his work !"

— **Philippe Le Mouëllic**, worked directly with Daniele at UCB

"I met Daniele at UCB, where he took responsibility of EAI. I remember him as a knowledgeable consultant, always ready to help out to solve a problem."

— **Philippe Snoeck**, worked directly with Daniele at UCB

"I've been working with Daniele in an international composed team on an EAI project at UCB for about 12 months. Daniele is very communicative and has the ability to explain complex subjects in a comprehensive manner. He is dedicated, hands-on and he has the scarce talent to combine a broad technical background and a perfect feeling for usability and building user friendly interfaces appealing to business users."

— **Bart Verlinden**, managed Daniele at UCB
