Professional Profile

`Delivering solid work, always bringing something new and looking for opportunities to improve. Challenging, deepening his knowledge through research and collaboration with the most relevant people.`

Whether it is on the front-end or the back-end, I'm always keen on finding solutions to problems encountered by both the business and the clients. I always strive to take responsibilities and produce quality work and provide a good experience for the customers.

Experience

March 2019 - Present

E-Freelancing Ltd
Director

Founder and Director of E-Freelancing Ltd which consists in contracting work in the domain of software engineering. Our client gave us the mission of designing and implementing a highly available REST API. The constraint was to make their development team able to maintain and develop further features using the stack chosen by us.

Key Responsibilities:
- Shareholder
- Director
- Salesman
- Software Engineer

Key Achievements:
- Securing a client
- Successfully achieved the mission by having the REST API performing 10X better on certain endpoints
- Being assigned another mission afterward

November 2016 - March 2019

Redbite Solutions Ltd
Full-Stack Developer
