Thomas Carney

Address: Flat 2, 36 Albion Street, Birmingham, B13EP	Mobile Phone: 07711185989 Email: tomdcarney@gmail.com

PROFILE

I've spent the last 5 years as a developer in small teams, in which I have high levels of responsibilities and strict deadlines. I'm really passionate about delivering effective solutions, through improving current implementations and using new and innovative technologies. I enjoy the challenge of communicating complex ideas and strategies with people of different experiences.

CORE DEVELOPER SKILLS

Coding/scripting languages:

C#. Net Core
VB.NET
T-SQL & MYSQL
JavaScript in Angular, and ExtendScript
JAVA, PHP, HTML5, CSS, PYTHON, Unix and XPATH

Technologies and Softwares:

.Net / .NET Core framework	Oracle databases
Visual Studio	Stripe and payment APIs
Unit Testing using Nunit	Azure Cloud Services
MVC	Adobe Creative Suite
Microsoft SQL management studio	RESTful Web APIs

Methodologies and other experience:

I have experience in different Agile methodologies, including SCRUM, Test Driven Development, Pair Programming and Extreme Programming; as well as the Waterfall method. I have also worked with Microsoft, Macintosh and Linux operating systems.

KEY ACHIEVEMENTS

- In my last two roles there have been periods (weeks to months) where I have been the only developer available, and I've successfully ran my team's development process by myself.
- The addition of an engine that computes all of the mathematics for the current site/apps in my current role. This system is heavily regulated by the CQC and is of utmost importance for the business.
- Created an internal system for monitoring, amending, updating and adding data for which customer services and operations can both use help the business. First project in C# and begun in first week of Push Doctor.

EMPLOYMENT EXPERIENCE

Push Doctor - .Net Developer
Dates employed: November 21st 2016 to present
Experience gained:
