Education & Certifications

- MSc Information Security -*Royal Holloway, University of London 2002*.
- CCSK – *CSA – 2017*
- CISSP – *ISC$_2$ – 2018*
- Prince2

Key Skills & Experience

- Security Architecture & design
- SABSA & ToGAF
- Security Patterns
- Data Loss Prevention (DLP)
- Data Protection & GDPR
- Controls Framework
- Firewalls & Routers,
- IDS/IPS, WAF, Proxy)
- SIEM - SOC
- Web Application Security
- Cloud Security Architecture
- CASB, Web Gateways
- Business Acumen
- COBIT
- Leadership
- Compliance Standards *(PCI DSS, ISO 2700x, NIST, PSD2, SOC2, ISO 31000; ISO 9001; ISO 27017, FINMA; APRA 234)*
- Analytical thinking
- Cryptography & Key Management
- Cloud Technologies *(SaaS, PaaS, IaaS, Virtualisation, Containerisation, Serverless, AWS, Azure, GCP, O365)*
- Identity & Access Management
- Privilege Identity Management
- Threat, Vulnerability & Patch Management
- Auditing & Assurance
- Machine Learning
- Data Visualization
- SDLC
- DevSecOp

Alex is a highly skilled and results-oriented Infosec professional with solid technical background and vast industry experience across a number of verticals. He has a broad and deep hands-on experience in all Cyber Security domains including Process, People, Technology controls.
He has a proven ability to assess and manage complex solutions; viewed as a strong troubleshooter. Successful in intense and demanding environments, providing decisive team leadership and structure with a track record of motivating and developing high performing teams.

Accomplishments

- Developed service provider agnostic security architecture solutions framework for a SaaS solutions provider.
- Improved Client security diligence and assurance process and reduced churn by 70% within a period of 3 months.
- Aligned and unified a disjointed Change management across a global business function
- Improved security situational awareness and reduced MTTR by 40% for detected incidents.
- Aligned compliance standards and regulations for a global financial services provider which reducing compliance fatigue by up to 85%

Work Experience

Head of Cyber Security   Temenos   Jan '19 – June '19

- Setup and operated the security function
- Azure security architecture and controls review and improvement
- Enterprise level security architecture and design (On-Prem, Azure, AWS and GCP)
- Team leadership and strategic
- Compliance controls (SOC2, ISO 2700x, Cloud, GDPR, PSD2, PCI DSS)
- Privilege identity management solution
- Service Security improvement programme architecture & design

Head of Security Practice   Retail Reply   Aug '17 – Aug '18

- Google GCP
- Web Microservices
- Data loss prevention Architecture & implementation
- GDPR Compliance
- Security Training
- RFP and Vendor selection

Founder & CISO   Digitranz   Aug '15 – Jul '17

- Cloud Security Architecture
- CASB integration and advisory
- Data loss prevention
- SIEM – SOC
- Training and Awareness

- LAN, WAN, MPLS, VPN, IPSec
- Active directory, LDAP, AzureAD
- DNS, WAF, Application gateway
- WAF, API
- SAML, ADFS

Programming & Coding
- Python
- R
- Powershell

Other Skills & Experience
- Orchestration & Automation
- Virtualisation
- Fintech & Regtech
- OWASP
- Antimalware
- Outsourcing
- Team leadership
- Security and Penetration testing
- Incident management
- Change management
- Disaster Recovery & Business Continuity

Voluntary / Unpaid

Chairman Board of Directors;
Cloud Security Alliance
Jan '17 – Jul '18

Security Operations Manager   **Heathrow Airport**   **May '13 – Jul '15**
- ISO 27001 ISMS implementation and Operations
- Identity & Access Management
- CASB & cloud SaaS Storage security
- Vulnerability & Patch Management
- Vendors and 3rd party management
- Security testing & Assurance
- Security improvement programme integration & transformation

Security Consultant & Architect   **Verizon**   **Nov '11 – Apr '13**
- PCI DSS assessments and remediation architecture
- GRC consulting and RSA Archer implementation
- 3rd party compliance assurance
- CISO secondment
- KPI & KRI definition and reporting

Security Consultant & Architect   **Atos**   **May '07 – Oct '11**
- Home office & FCO Integrated case working (ICW)
- Application security
- RISK management (IS1 & IS2)
- ISO 27001 Audit
- Endpoint security

Security Consultant & Architect   **Capita**   **Sep '04 – Apr '07**
- Data centre expansion and Virtualisation
- Firewalls, IDS-IPS,
- SIEM – SOC Implementation & operation
- Threat & Vulnerability management
- Windows system hardening and gold standard
