Personal Profile

I am a highly experienced IT professional specializing in web development providing extensive design and coding skills, as well as an ability to convert client requirements into exciting online applications. I am now seeking a new and challenging web development role, one that will make best use of my existing skills & experience, but provide an opportunity to further my personal and professional development.

Areas of Expertise:

Website design	Developing applications	Front-end programming	Web server configuration
	Full stack Developer	User interfaces	User Acceptance Testing

Web Development Skills:
- Transforming various design projects into reality
- Experience of Object-Oriented Programming, Continuous Integration, Service-Oriented Architecture and mobile Web development
- Comprehensive understanding of information architecture principles
- Comprehensive knowledge of web-based programming languages including:

  - **ASP .NET MVC4/5/Core**
  - Dependency Injection (**AutoFac**)
  - **Bootstrap** (HTML/CSS – SASS)
  - **SQL Server** (SQL / T-SQL)
  - Visual Studio 2017
  - **C#**,
  - **JQuery**
  - UML
  - AGILE – Scrum
  - **Azure Portal**
  - **AngularJS** / Knockout
  - WEB API – RESTFUL
  - Angular (5)

Qualifications

2012 – 2013: Masters 2 SIC (Intelligence and Communication Systems), Université de Cergy-Pontoise
2009 – 2012: Masters 2 M2I (Master of Information Technology Engineering), ITESCIA, Cergy
